

Name _____

Online Privacy – Creating a Password

A password protects your information-

Like your home phone number, age and location.

You should never include your name, age, or occupation.

Your password should be 8 characters long-

Use numbers and letters

Mix'em up, make a song.

Examples:

NetSmartz is number 1. I like 2 run.

Password- Nin1112r

3rd gradrs rule at school. Cause we're cool!

Password- 3grasCwc

How can you protect it-

You can show it to your parents

But never tell your friends

Keep it 2 yourself!

Remember the Password Rap

Keep it safe,

Keep it secret,

Keep it in your head!

Now let's practice creating a password. Remember it has to be 8 characters long and you need to mix numbers and letters. Try making a rhyme or song!

(Write your rhyme or song on the line above.)

Password: _____
